

The Study L'école Internationale

(Promoted by Dr. K.M. Cherian Educational Society)

8th Edition - October 2024

The Study Cyber Chronicles

EDITORIAL

"Education is not the filling of a pail, but the lighting of a fire."

– *W.B. Yeats*

For the upcoming edition of our newsletter, we are delighted to present an engaging collection of stories and experiences that truly bridge the generations and encapsulate the vibrancy of student life at

The Study Lecole Internationale. In this edition, you'll find heartwarming narratives like "Bridging Generations Through Stories," where our middle schoolers enthrall the kindergarten students with timeless tales. We also highlight "From Classroom to Cricket Field," a tribute to our students' sporting achievements that reflects the school's journey to success on and off the field. Our commitment to holistic well-being is evident in "Yoga

& Lifestyle Enrichment," emphasizing the benefits of mindfulness and healthy living. In "Journey of Discovery," one student recounts their unforgettable experience at the India International Science Festival, while another exhilarating feature takes you on a field trip to the renowned Vainu Bappu Observatory. These are just a glimpse of the many enriching adventures and academic highlights featured in this edition.

We hope you enjoy reading these stories that celebrate the curiosity, creativity, and accomplishments of our students, showcasing the dynamic spirit of our school community.

A Journey of growth
&
Success

MESSAGE FROM THE desk of Academic Director...

Hearty Greetings to all the staff members, students & parents of The Study”!!!

We are in an era where technology has broken the barriers of various industries and new novel professions are emerging. Our focus is to lay a strong foundation to become skilful in their chosen specialities and become good global citizens.

We have a dynamic, hardworking faculty who are involved in education to benefit the students, embracing wide variety of methodologies catering to the individual needs of the learners in this. The entire team of all staff members is well aware of the roles and responsibilities for the safety and security of your wards entrusted in our care. It is our belief that school should be the experience of a life time. Our school experience sets the stage for success later in life and provides a lifetime of positive memories for our students.

The Study offers a wide variety of challenging, enjoyable and successful curricular opportunities, athletic programmes, performing arts and musical programmes with various clubs and activities.

Academic excellence with character and personality development is our ultimate goal. The well chalked out academic and co-curricular programme enables the students to attain their full potential to develop sound work habits.

In alignment with the National Education Policy (NEP), our educational approach is deeply rooted in Indian ethos, closely associated with the elements of nature to nurture global citizens who are not just academically proficient but also grounded in the principles of our rich cultural heritage and the interconnectedness of nature converging to form the foundation of our holistic education.

Dr. APJ. Abdul Kalam, former President of India states that “the resource of the youth is an important building block for transforming India into a developed nation”. In the midst of contemporary challenges faced by our youth, such as anxiety, depression, and obesity, we recognize the imperative need to address these issues at their core. As today’s teens turn to digital and social media sources to learn about everything, the overwhelming information can be stressful and confusing. We undertake to create awareness of responsible usage of technology to ensure children are not carried away by the myth.

The visionary founder, Chairman of L’Ecole International Dr. K M Cherian, the world class cardio thoracic surgeon, has now established the first of its kind labs that would cater to the studies in Physician Assistants, Good Manufacturing Practices, Good Lab Practices, Nano technology and Stem Cells Education, Courses in Basic Life support (BLS) & Advanced Life Support (ALS), Augmentation of bloods, Artificial Intelligence, Robotics, Drone technology and Space technology to empower the future generation at “The Study” school.

We invite all the stakeholders to join us on this transformative journey, where we endeavor to empower your wards to face challenges, to emerge as fully equipped resilient leaders to navigate life’s intricate pathways with unwavering confidence.

May we continue to give our students strong roots and stronger wings to conquer the world!!

Uma Narasimhamurthy
Academic Director

THE ICON OF STUDY: A PORTRAIT OF EXUBERANCE at 83

At the age of 83, mere numbers fail to encapsulate the vibrancy and intellect of this remarkable individual. His life story is a testament to resilience and accomplishment, adorned with prestigious accolades like the Padmashri, Wockhardt Medical Excellence award, and numerous record-breaking achievements.

Despite the passing years, his energy remains undiminished, a testament to his unyielding spirit and passion for knowledge. His enthusiasm for life and insatiable curiosity are captivating, inspiring all those around him to embrace the wonders of learning and exploration.

With a mind brimming with ideas, he serves as a beacon of inspiration for future generations. His visionary insights and forward-thinking perspective illuminate the path toward progress and innovation. His ability to seamlessly integrate the past with the present, while charting a course for the future, is truly mesmerizing.

His thirst for knowledge knows no bounds, as he stays abreast of the latest inventions and breakthroughs. His intellectual agility and constant pursuits of excellence set him apart as a true icon of academia.

His contributions to the field are invaluable, shaping the discourse and igniting a passion for discovery in all who encounter him.

In a world where age is often equated with decline, he defies stereotypes and embodies the timeless essence of intellect and exuberance. His legacy will endure as a testament to the boundless potential of the human mind, inspiring generations to come to reach greater heights and explore the endless possibilities that life has to offer

"Rabbit's Turnip" Lesson Comes to Life.

In a dynamic classroom experience, students recently brought the classic tale of Rabbit's Turnip to life through an interactive role-play session. The students enthusiastically embraced their roles, embodying characters from the story with enthusiasm and creativity. The role-play scenario allowed students to explore the central themes of the story, such as cooperation and problem-solving. Through the enactment of key scenes, students actively

engaged with the material, making learning a memorable and enjoyable experience. Overall, the role play not only brought the story to life but also created a vibrant and collaborative learning environment.

The students' active participation and enthusiasm demonstrated the power of experiential learning in making lessons both educational and enjoyable.

CELEBRATING ACADEMIC EXCELLENCE

The Study L'École Internationale has garnered yet another accolade with its outstanding performance in the CBSE 10th and 12th board examinations for the academic year 2023-24. On the 25th of May, a ceremony was held to honour the exceptional achievements of its students. This event not only recognized the dedication and perseverance of the students but also celebrated their academic excellence.

The school's top performers were distinguished with the prestigious Dr. K.M. Cherian's

Excellence Award, a testament to their hard work and commitment. The award was presented by Chairman Dr. K.M. Cherian, Vice Chairman, Dr. Sanjay Cherian, Correspondent Mrs. Sandhya Cherian, and Academic Director Uma Narasimamoorthy. Parents, teachers, and students gathered to celebrate this momentous occasion, reflecting on the collective efforts that contributed to this success. The event highlighted the school's commitment to nurturing future leaders and innovators.

Éveil Matinal à Pondichéry”

Chaque matin, les cloches de l'église résonnent, les prières de la mosquée s'élèvent, C'est le doux réveil de Pondichéry, où les cultures se rencontrent en harmonie. Flânant dans la Rue Suffren, Au marché dominical, des trésors locaux, des petits plaisirs à s'offrir. C'est Pondichéry, où le petit-déjeuner offre le choix, Croissants délicieux ou dosa chaud, une symphonie de saveurs. Voyageant dans les rues paisibles de la ville blanche, Ou sur les chemins rouges d'Auroville, une aventure à chaque pas. Oh, n'oublions pas la plage, où le sommeil de l'océan berce, C'est Pondichéry, une ode à la beauté, une poésie à chaque coin de rue.

-Aurodyuti Dutta

Sauvons la terre : Des Gestes Simples, un Impact Profond.

Protéger l'environnement est un devoir qui incombe à chacun de nous. Comme le dit si bien Antoine de Saint-Exupéry : 'Nous n'héritons pas de la terre de nos ancêtres, nous l'empruntons à nos enfants. 'Nous devons agir afin de préserver notre source de nourriture et d'eau potable, maintenir la qualité de l'air, et conserver l'équilibre climatique. Pour préserver la diversité des espèces animales et végétales, il est impératif de protéger la biodiversité de la nature. Cela commence par des gestes simples dans nos foyers, tels que réduire la consommation d'eau et d'électricité, planter davantage d'arbres, arroser le jardin le soir, et fermer le robinet lorsqu'il n'est pas nécessaire. Au-delà de nos maisons, il est crucial de s'attaquer à la pollution et de réduire le gaspillage, contribuant ainsi indirectement au réchauffement de la terre. Il est donc essentiel que nous

soyons tous responsables et que nous mettions en oeuvre des efforts concertés pour protéger notre planète, cette précieuse héritage que nous transmettrons aux générations futures.

TOBUZ App

We, Aadarsh, Ilesh, Aleena, and Aiyana, students of the 11th grade computer science stream, have built a bus logging and management application called Tobuz. After joining the computer science group, we wanted to utilise and develop our skill set by building an app, and we chose this idea as we wanted to build something relevant to our school. The app currently aids in the manual logging of bus arrival and departure times. Each bus has a QR code, which when scanned using the app, immediately logs the current time. This data is stored on the cloud, allowing transport managers to remotely monitor buses entering and leaving. Since this data is in a digital format, it is easy to process it for producing reports and analysing the performance of the transportation system. We, plan on adding many new features and improvements to the app in the future. Some of the features we have thought of, include full automation using mounted cameras, location and speed tracking on all buses, detailed bus routes with bus stops and timing information, and equipment (bus) and staff (driver and conductor) information. We would like to thank our school and our computer science and class teacher

Mrs. Priyadarshini for providing a platform for us to let our ideas flourish.

Ilesh Kedharanath Thiada

THE LYRICIST'S RETREAT

India's natural beauty

In India's heart, where rivers run,
Ganges sparkles in the sun.
From Himalayas, peaks so grand,
To Kerala's lush, green land.

The Thar Desert, golden bright,
Shimmers in the moon's soft light.
Tigers roam in jungles dense,
Nature's beauty, so immense.

Tea gardens in Assam's mist,
Where morning dew and sunlight kiss.
Mangroves in the Sundarbans,
Shelter life, in nature's plans.

From Nilgiris' blue-hued hills,
To Andaman's serene, calm thrills.
India's nature, rich and vast,
A timeless wonder, unsurpassed.

-Reshma meenakshi.S

OUR MOTHER EARTH

Outside under the sky,
Up ,down and everywhere.
Running to and fro,
Many creatures and I.
Outdoors for an adventure,
The sun is shining bright.
Hope it stays the same,
Every single time .
Rain must fall like snow,
Ending someday.
At last I see the light,
Rainbow glittering up high.
Thoroughly enjoyable ,
Happiness is right here .

-Rebecca Madhuri Prasanth

9-D

NATURE

We the people, should protect nature
We the people, should save our earth
Lets protect our earth altogether
And save ourself from calamities

Nature protects everything in the world
We shall protect nature
With a few simple steps
Lets make a new world
Humans , birds , wilds are all nature
Let make a world ,
Where there is no hunting
A peaceful place to stay

Trees are beautiful creatures ,
Which provides shade
When we sit under them
They are like god to us

Nature is a priceless gift
Which we shall not loose
Let us praise nature
And create a mesmerizing world !!!

-J.Nishanthini

NATURE'S MUSIC

I love nature's music
And her summer time songs
In the forest , her great singers
Gather altogether

The wind plays the harp
And the bird takes the tune
But the best part is sung by
The man and the moon

Each one knows their part
To the very last
Even at times when
Our radios didn't cast

Music and nature combine together
in a tone
Just like how the wind and the music
are together blown

Nature has instruments of its own
Which is neither seen nor is known
It sings the music all alone combining
together in a tone ..

NIGHT TIME MAGIC

As the sun hides away, the world turns
dark.
Stars twinkle like diamonds in the
sky's grand park
The moon rises, it's silver glow
so bright

Night spread its wings, bidding day
goodbye
In the deep forests, crickets hum their
song
Owls hoot from branches, shadows
growing long
Leaves rustle gently, a gift to the night
Nature 's warm hug under the moon's
soft light
The lake mirrors the sky's celestial dance
Stars and the moon waltzing in a
quiet trance
The sound of the waves
In a heart that craves
Pine trees sway, whispering secrets
of peace
Night's calm embrace- a magical release.

ODE TO CHAOS

Sing, O Goddess,
about your anger and joy,
that sent many a soul the gift of life,
and deprived many more of theirs,

about why the prettiest rose
has her sharp spines, her thorns,
and about why the bright hued butterfly
lives only about a week's length?

About why we humans revel in disorder,
and about whether you always are like
this,
embedded with your perfect chaos,
so that suffering and joy both rule the
same land?

But I love all that you give,
dear, wondrous Goddess,
I love the rose, with her painful caress,
and the short lived, beauty imbibed
butterfly,

I love the burning stars,
Which cut through the ashes of snow,
I love the people here,
Who are just as conflicted as you?

So sing, dear Goddess,
I wish to listen to your song,
cause mine would never do it justice,
and I want to hear yours.

HARMONY IN THE HEIGHTS

Peace and serenity, where tranquility
resides,
In the mountains' embrace, where
my heart confides.
Cool breezes flow, as rivers cascade,
Under starlit skies, memories are made.

Guitars strum softly by the campfire's
light,
Birds add their song to the morning's
delight.
Pathfinders pitch tents, under celestial
sights,
Harmony in the heights, where our
spirits ignite.

-Abigail

WHISPERS OF THE WILD

In quiet glades where sunlight streams,
Leaves shimmer in the morning beams.
A brook's soft babble, clear and bright,
Mirrors the sky with sheer delight.

Towering trees in robes of green,
Watch over hills and villages unseen.
Each flower hums a lively tune,
As petals dance 'neath the silver moon.

With every breeze, stories unfold,

Of ancient tales and mysteries untold.
Mountains stand tall, bold and grand,
Holding the earth with steadfast hand.

So take a moment, breathe the air,
Feel nature's heart, forever there.
In quiet glades where sunlight streams,
Leaves shimmer in the morning beams.
A brook's soft babble, clear and bright,
Mirrors the sky with sheer delight.

Towering trees in robes of green,
Watch over hills and villages unseen.
Each flower hums a lively tune,
As petals dance beneath the silver .

With every breeze, stories unfold,
Of ancient tales and mysteries untold.
Mountains stand tall, bold and grand,
Holding the earth with steadfast hand.

So take a moment, breathe the air,
Feel nature's heart, forever there.

WHISPERS OF THE WILD

After the twilight's hues
Begins the silent night,
Where the cosmos dances
Under the gentle moonlight.

In the quiet darkness embracing us,
The moon shines with a beautiful light,
Watching over the world from the dusk
Till the mysterious mesmerizing night .

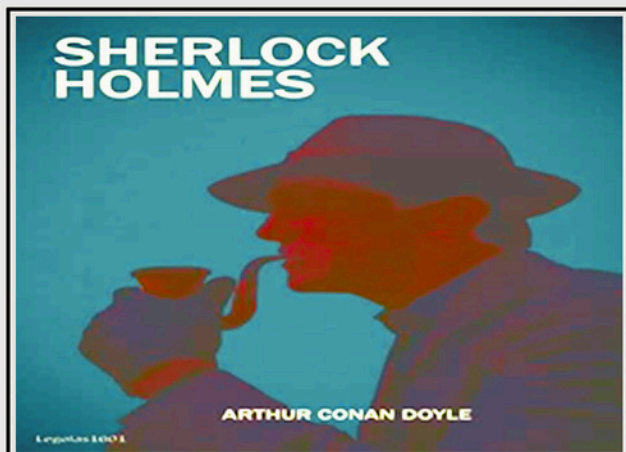

The stars that shine for centuries,
Like sparkling gems in the dark night
Carrying millions of memories
Hidden behind its bright light.

The night where secrets reside,
A place with never ending mystery.
A beautiful sight worldwide
With millions of spectacular scenery.

Book Review Sherlock Holmes: A Study in Scarlet (1886)

Author: Sir Arthur Conan Doyle Born in May 1859, in Edinburgh, Scotland, Sir Arthur Conan Doyle was a doctor by profession. He started writing stories in his free time, and his first story, The Mystery of Sasassa Valley was published in Chambers Edinburgh Journal in 1879. A Study in Scarlet was published in 1887 in Beeton's Christmas Annual.

Review:

Written in 1886, A Study in Scarlet is the first installment in the ever-popular Sherlock Holmes series. This is the first story to feature Sherlock Holmes, an amateur detective, and Dr Watson, Holmes assistant. In this story, we follow the adventures of the duo, as they solve a murder, gathering clues, ranging from bloodstains to cigarette ash, and footprints to wedding rings, as they eventually arrive at the most surprising of conclusions. This story was also the first to feature the use of magnifying glass as a detective tool. All in all, this book is sure to enthrall you and keep you on the edge of your seat.

A perfect read for crime thriller enthusiasts.

Rating: 4.5

Genre: Classics • Mystery • Fiction • Crime Detective • Mystery Thriller

Preparing Students for the Future: Future-Ready at The Study.

In today's rapidly evolving world, it's essential for schools to adapt and equip students with the skills and knowledge they need to thrive in the future.

By integrating advanced features at The Study, such as Good Manufacturing Practices (GMP), Good Laboratory Practices (GLP), nanotechnology, stem cell education, robotics, drone technology, Artificial Intelligence (AI) education, and Advanced and Basic Life Support (ALS and BLS) training, we are transforming into future-ready hubs of learning.

Holistic Development:

We, focus on holistic development, ensuring that students not only excel academically but also develop critical life skills. Through STEM education initiatives like robotics, drone technology, and AI education, students learn to think critically, solve problems creatively, and collaborate effectively, preparing them for the complexities of the modern workplace.

Cutting-Edge Learning:

By incorporating cutting-edge technologies like nanotechnology and stem cell education, schools expose students to the forefront of scientific research and innovation.

Students engage in hands-on experimentation, gaining practical experience and understanding the real-world applications of these emerging fields, thereby fostering a culture of curiosity, exploration, and innovation.

Ethical Awareness:

With the inclusion of GLP in laboratory practices and discussions surrounding stem cell education, students develop a strong sense of ethical awareness and responsibility in scientific research. They learn about the ethical implications and societal considerations associated with these advanced technologies, preparing them to navigate complex moral dilemmas in their future careers.

Safety and Well-being:

Future-ready schools prioritize the safety and well-being of their students and staff by providing ALS and BLS training. By equipping participants with essential lifesaving skills, schools create a safe and prepared environment, ensuring that everyone can respond effectively to medical emergencies and contribute to a culture of safety and preparedness.

Safety and Well-being:

Future-ready schools prioritize the safety and well-being of their students and staff by providing ALS and BLS training. By equipping participants with essential lifesaving skills, schools create a safe and prepared environment, ensuring that everyone can respond effectively to medical emergencies and contribute to a culture of safety and preparedness.

Diversity and Inclusion:

Through initiatives like AI education and robotics, The Study, promotes diversity and inclusion in STEM fields. By inspiring interest and excitement in these subjects among under represented groups, we empower students from diverse backgrounds to pursue careers in STEM, fostering a more inclusive and equitable society. In essence, The Study, embraces innovation, fosters creativity, and prioritizes the holistic development of its students. By integrating advanced features and initiatives, we ensure that studyites are well- prepared to succeed in an ever-changing world, equipped with the skills, knowledge, and ethical awareness needed to make meaningful contributions to society.

Senior Secondary academic coordinator

“The story of Dr. Jonas Salk From Polio’s Foe to Medical Marvel: Unveiling the journey of Dr. Jonas, Pioneer of Hope and Healer of Nations”

Dr. Jonas Salk was an American virologist and medical researcher. He was one of the pioneers who developed the first successful —Polio Vaccinell in 1955. Way back in 1900, polio epidemics began to appear in the United States and Europe and started to spread all over the world. Around 16,000 cases of polio occurred in a year. Thousands and thousands of little children were affected with paralysis and many even died. The children who survived faced lifelong consequences with deformed legs, not able to walk on their own but have to rely on calipers and wheelchairs. Wanting to save these children from this dreadful disease, scientist Jonas Salk spent months and years in his laboratory and researched for a solution. He then invented the first

successful polio vaccine. He was such a great person that he first tested the vaccine on himself and his family members before giving it to the affected children. Hurray! The vaccine worked. This was a massively successful invention, wherein many innocent children's lives were saved. He was considered as a savior by the public at those times.

By 1959, Dr. Salk's vaccine had reached more than 90 countries. Within 25 years, polio was eliminated in the United States and in other countries who took the vaccine. Today, the children are hail and healthy and also safe from this deadly disease, mainly because of the remarkable contribution of Dr. Jonas Edward Salk. His dedication to vaccine development and disease prevention has left a lasting impact on the field of medicine.

La Magie de Noël : Saison de Partage, de Joie et de Souvenirs

Il est temps, cette période de l'année où la terre s'habille de blanc et où les familles s'activent pour préparer les festivités de Noël. C'est le moment où Noël prend tout son sens : l'hiver, les vacances, les étrennes, un festin délicieux, et surtout, exprimer notre gratitude et recevoir la bénédiction divine.

Noël nous guide vers la clôture de cette année qui s'achève. En résumé, c'est la saison du don, de la réjouissance, de la création de souvenirs et de la célébration. La magie de Noël réside dans ces moments de partage, de joie et d'émotion qui resteront gravés dans nos mémoires.

L'Inde : Un Pays de Sérénité et de Richesse Historique

L'Inde, un pays paisible au coeur du monde, n'est pas seulement un lieu, mais une expérience.

Au cours des derniers millénaires, elle a été le témoin silencieux de l'évolution du monde. Avec des monuments emblématiques tels que le Temple du Lotus, le Fort Rouge et le Taj Mahal, elle partage une histoire riche avec son passé français. L'Inde, une destination où la sérénité rencontre la grandeur historique.

Bien-Être au Quotidien: Conseils pour une Vie Équilibrée

De nos jours, être en pleine forme deviant essentiel pour mener une vie épanouissante. Voici quelques conseils :

1. Hydratation Saine : Boire abondamment, environ 1 litre par tranche de 10 kg de poids corporel.
2. Alimentation Équilibrée : Adopter un régime riche en légumes et fruits pour nourrir le corps.
3. Activités Physiques Variées : Intégrer des activités telles que le yoga, le football ou d'autres sports pour maintenir la forme physique.
4. Sommeil de Qualité : Accorder une importance primordiale à un sommeil réparateur, aussi crucial que les autres méthodes.
5. Santé Mentale : Souvent négligée, la préservation de la santé mentale est une méthode fondamentale à ne pas sous-estimer. Suivre ces conseils contribuera à une vie équilibrée, favorisant ainsi un bien-être global.

-Thanusree

A Journey to Leadership

As we sit together, reflecting on our journey to becoming the Head Boy and Head Girl of this prestigious institution, we are filled with gratitude and pride. The road to our victory was not an easy one—it was filled with challenges, learning moments, and unforgettable experiences.

For both of us, the thought of representing the student body began as a distant dream. We had always admired the previous Head Boy and Head Girl for their leadership, charisma, and dedication, and we aspired to carry the same torch.

From the moment the school announced the elections, it felt like a wave of excitement and anticipation swept across campus. We knew that we wanted to make a difference, and the decision to run for the positions came naturally. But this wasn't just about gaining a title—it was about standing up for our fellow students and ensuring their voices were heard.

Campaigning was undoubtedly one of the most exciting yet challenging parts of this journey. We realized that simply putting up posters or delivering speeches wouldn't be enough. What mattered was reaching out to every student, understanding their concerns, and finding ways to address them.

We spent hours talking to students from different classes, listening to their ideas and feedback. From issues like improving canteen services to creating a more inclusive school environment, we made sure that our campaign focused on what the students truly wanted. Our vision was not to impose our own ideas but to work as representatives who reflect the collective aspirations of our peers.

The final speech before the election was perhaps the most nerve-wracking part of the entire process. Standing in front of the entire school, knowing that our words could sway votes, was an incredible responsibility. We decided to speak from the heart, focusing on honesty, passion, and the desire to make real changes.

Election day was a whirlwind of emotions. Our friends and classmates stood by our sides, supporting us as we eagerly awaited the results. There were moments of doubt, but we both knew that we had given it our all. The outcome wasn't just about winning or losing—it was about the journey and the lessons we learned along the way.

When the results were announced, and we heard our names called out, it was a surreal moment. The joy, excitement, and overwhelming support from our peers were unforgettable. But more than anything, we felt a deep sense of responsibility. This victory wasn't just ours—it belonged to every student who had believed in us.

Becoming the Head Boy and Head Girl is not the end, but the beginning of a greater responsibility. Our goal is to lead with humility, to serve our school with dedication, and to be the voice of every student. We know there will be challenges ahead, but with the support of our peers, teachers, and the school community, we are ready to face them.

This victory is not just about us—it's about teamwork, perseverance, and the power of believing in yourself. To every student who dreams of making a difference, remember: leadership is not about standing at the front. It's about standing with others and walking together towards a better future.

We are honoured to be your Head Boy and Head Girl, and we promise to work tirelessly to make our school a place where every student feels heard, respected, and inspired.

Together, we can achieve great things.

-Madavan Mourthy & Vithiya
Head Boy & Head Girl

CBSE Basketball Match

A Journey of Growth and Success

Last year's CBSE basketball match at Vellore was an unforgettable experience filled with determination, teamwork, and sportsmanship. Despite the fierce competition, we stood strong, learning valuable lessons in both victory and defeat. From the moment we arrived, everything was well-organized. The food provided throughout the tournament was wonderful and satisfying, and the transportation was equally well-managed. The accommodation, conveniently located near the venue, allowed us to rest and recharge without any worries.

A heartfelt thank you goes to our incredible coach, Arunpandi Sir, who guided us every step of the way, pushing us to give our best. His motivation and belief in us made all the difference. We are also deeply grateful to PT teacher, Pugazhendhi Ma'am, for her unwavering support and for ensuring everything went smoothly. Fast forward to this year's CBSE basketball match, and it's clear how far we've come. This year's event was a significant step forward, marking one of our best performances yet! Last year taught us the value of perseverance, and this year we stepped up our game, securing an impressive 2nd place victory. The progress was undeniable—our team showcased skill, resilience, and determination on the court.

Fast forward to this year's CBSE basketball match, and it's clear how far we've come. This year's event was a significant step forward, marking one of our best performances yet! Last year taught us the value of perseverance, and this year we stepped up our game, securing an impressive 2nd place victory. The progress was undeniable—our team showcased skill, resilience, and determination on the court.

This year's match was a true testament to our growth, and we couldn't have achieved this without the support and belief of both our mentors. Thank you for helping us turn our hard work into success!

From classroom to Cricket Field: The study's path to sporting success

Being recognized and appreciated early on is indeed a rare occurrence, but The Study sets itself apart with its genuine and holistic approach towards education, nurturing exceptional learners who stand out in various fields. The school takes immense pride in spotlighting young achievers like Sailesh Vaithianathan P, who recently made his debut in the BCCI's U-23 C K Naidu trophy against Gujarat, emerging as the youngest representative from Puducherry.

This remarkable accomplishment not only highlights Sailesh's talent and dedication but also serves as a testament to the comprehensive education provided at The Study.

At The Study, education goes beyond textbooks and classrooms; it encompasses a diverse range of experiences and opportunities aimed at fostering personal growth and excellence.

Through a combination of rigorous academics, enriching extracurricular activities, and personalized mentorship,

students are empowered to discover their passions and excel in their chosen endeavors. Sailesh's journey from The Study to the cricketing arena is a prime example of how the school ignites the passion of each child, equipping them with the skills and resilience needed to thrive in today's competitive world. Sailesh's remarkable achievement not only brings pride to The Study but also exemplifies the school's commitment to nurturing well-rounded individuals who are not only academically proficient but also socially responsible and resilient in the face of challenges.

As The Study continues to uphold its tradition of excellence in education, it remains dedicated to cultivating a learning environment where every child is encouraged to dream big, pursue their interests, and make a positive impact on the world.

“Little Learners Embrace Health and Hygiene: Highlights from KG Assembly”

In a recent kindergarten assembly, young minds delved into the theme of Health and Hygiene. Children enthusiastically absorbed essential lessons, emphasizing the significance of handwashing, maintaining oral hygiene, understanding the importance of wearing masks, practicing nail trimming, and embracing personal grooming habits. The interactive session aimed to instill lifelong habits that contribute to overall well-being. As tiny hands eagerly participated, the assembly became a vibrant platform for fostering health-conscious behaviors in our youngest learners. The engaging discussions and activities showcased the commitment of the kindergarten to nurture not only academic growth but also essential life skills for a healthier future.

Successful story narration competition showcases primary school talent

Our story Narration Competition at the primary school level was a resounding success, with students displaying exceptional storytelling skills.

The event featured a diverse range of narratives, including moral stories and captivating animal tales. The competition showcased the creativity and eloquence of our students as they brought stories to life, captivating the audience with their vibrant expressions and engaging narratives.

The participants demonstrated not only their proficiency in language but also their ability to convey meaningful messages through storytelling. It was heartening to witness the enthusiasm and passion with which our young storytellers embraced the stage, leaving a lasting impact on both the judges and the audience. The event not only celebrated the individual talents of our students but also emphasized the importance of storytelling as a means of fostering creativity, communication skills, and moral values. It served as a reminder of the power of narratives in shaping young minds and instilling positive values. In conclusion, the Narration Competition was a testament to the storytelling prowess of our primary school students.

Their performances not only entertained but also left a lasting impression, highlighting the depth of talent within our school society. As we applaud their achievements, we look forward to nurturing and encouraging further creative expression among our students in future events.

Yoga & Lifestyle Enrichment

A talk and a dialogue with KG, Primary and Middle School -The Study International, Puducherry.

Today we had our first interactive session on Lifestyle enrichment and how Yoga can be a useful tool to achieve this goal. We introduced children to the idea that anything one does in absolute union of the self with the divine is - Yoga. Most often we see that good habits are

not very attractive or presented poorly whereas almost all bad habits are very attractive and made to appear cool. To break this misconception, we first asked children about their idea of good-health and what are some means to be healthy. Unanimously, all the kids had three top priorities – Healthy food, adequate sleep and sufficient body movements. Then we asked them - that inspite of having the knowledge, why most of us fail to do what's necessary and the answer was basically lack of motivation, badly organized lifestyle and the belief that healthy food is not tasty, basically good-habits are not cool and hence, not sustainable. We then introduced a short breathing meditation & body stillness and tried to observe the peaceful effect of this one-minute intervention. Children had a smile on their faces, they were more receptive and most importantly, they became aware of their breathing which automatically ensures better and deeper breathing, hence, enhanced concentration with the sense of true peace within. When told about deep-sleep and its healing effects, they became motivated to go to bed on early. Now comes food.... If we need to sleep early, say at 9pm....we need to eat atleast 2-3 hours before sleeping for the food to get digested to allow sound sleep. Hence, Dinner must be light and between 6-7pm. The kids got motivated to have a dialogue at home to request their parents for early dinner and to also offer help for the same. And finally, adequate movement.... Children were introduced, verbally, to the systems in Yogic practices and how they induce peace in the mind and enrich lifestyle. A popular and well-known practice like Suryanamaskara which is considered a complete package, if done in the right manner, consistently, along with some Pranayamas (Yogic Breathing) and relaxation techniques, one is sure to be healthy, both physically and mentally. Children participated actively in the dialogues

and came up with honest issues which sometimes makes these practices difficult to adopt on a regular basis and we collectively came up with ideas and alternatives to remain motivated and to get more and more people to switch to healthier lifestyle. In our upcoming meets, we shall touch upon emotional and spiritual health and the means to achieve them. None of these things are brand new to people, we simply reminded the kids to find the answer within instead of looking for a solution outside and it worked wonderfully.

Lessons Beyond Books: My Journey at The Study

From the moment I first walked through the gates of The Study, I knew this place was something special. It wasn't just a school, it was like stepping into a second home, where every corner held the promise of learning, laughter, and lifelong memories. Now, looking back, I can see how much The Study has shaped me, not just academically, but in ways that have made me who I am today. The classrooms at The Study were never just about textbooks and exams. I still remember those lively debates, the excitement of cracking a tough problem, and the satisfaction of finally understanding a tricky concept. We were prepped not just for the next exam, but for life. The teachers planted in us seeds of curiosity and resilience that would bloom long after we left the school grounds.

Being involved in almost every school event, from the grand annual days to the vibrant Pongal festivities, I was in the thick of it all. These weren't just extracurriculars; they were the heartbeat of the school, a chance to build skills while having the time of our lives. Balancing these activities with academics wasn't just about time management; it was about having the best time doing it. I still remember my first annual day, where I performed martial arts, then classical dances for Pongal, regional folk performances, fusion dances, sang Christmas carols in the choir, and embraced every opportunity from Western music to skits and cultural events.. Those practices were filled with laughter, camaraderie, and a sense of belonging that made school life so much more vibrant. These experiences are now seamlessly woven into the fabric of my favourite school memories.

Sports at The Study was another epic chapter. The range was fantastic, from basketball and volleyball to chess and table tennis. Being part of the Volleyball team was where I truly found

my rhythm—sweating it out on the court, and clinching that zonal match was pure adrenaline. The thrill wasn't just in the victories—the practices after school hours were packed with energy, filled with the excitement of winning games, and the sheer enthusiasm of cheering on our team. The sports meet was another spectacular event, where all the houses came together to compete fiercely. I remember cheering so hard that we lost our voices, but it was worth the immeasurable fun we had together, creating memories I'll always cherish.

And then, of course, there was the NCC. The discipline, the early morning drills, the sense of pride in wearing that uniform—it was tough, but it was also one of the most rewarding experiences of my school life. As the parade commander of the Air Force wing, I learned what it really means to lead, be responsible, and take challenges head-on. One of my proudest moments was representing the entire school in front of Kiren Bedi, guiding over 50 students in a flawless salute and drill to welcome her. The camps were an adventure of their own—exhausting but filled with irreplaceable memories. They taught me invaluable lessons in teamwork, resilience, and the strength that comes from pushing through together.

Academics at The Study was surprisingly fun, with regular tests sparking a friendly competition that pushed us to be our best. My time here tuned my personality in ways I never expected, instilling qualities like selflessness, care, and a genuine willingness to help others. And despite all the extracurricular fun, there was no compromise on academics. I was honoured to achieve third place in the —school for my 10th board exams. Receiving the Certificate of Merit from CBSE for a perfect score is a distinction I hold in high regard. It was all thanks to the unwavering support of my teachers, who believed in me and guided me through every challenge. Their influence honed my problem-solving abilities and helped me grow into the person I am today.

Teachers' Day Celebration

The Teachers' Day celebration organized by the Student Council on 5/9/2024 in Emerald Meadow was a memorable and heartwarming event, demonstrating immense respect and gratitude towards the teaching faculty. The day began with a warm welcome by the KG students, who presented flowers to the teachers, setting a joyous and festive tone for the day. Their gesture was a beautiful tribute to the mentors who play a crucial role in shaping young minds. Students from various levels showcased their talents with a series of exceptional performances. From energetic dance routines to melodious songs and captivating skits, the students' dedication and enthusiasm were evident throughout. Each performance was a testament to the hard work put in by the students, leaving the audience in awe. Following the performances, the management hosted a special lunch for the teachers, providing an opportunity for everyone to relax and enjoy a delightful meal together. This thoughtful gesture further added to the joy of the day. Overall, the Teachers' Day celebration was a resounding success, filled with appreciation, joy, and camaraderie. The Student Council and participants deserve commendation for their efforts in making this day a truly unforgettable experience for the teachers.

Program Coordinator

The one thing that truly encapsulates the spirit of The Study is its mango tree—the Roots of The Study. The mango tree wasn't just a part of our school grounds; it was the heart of our community. It was where we gathered, whether to study, to share a snack from the canteen, or just to hang out and chat during breaks. It was our spot, a place where friendships were made, where we laughed, where we found a moment of peace in the middle of a busy school day.

In every corner of The Study, from the lively classrooms to the quiet moments under the mango tree, I found a place where I could truly be myself.

This school didn't just prepare me for the next step in my academic journey; it gave me the skills, the confidence, and the memories that will stay with me for a lifetime. The Study wasn't just where I went to school, it was where I grew up, made lifelong friends, and became the person I am today. And for that, I will always be grateful.

Color Day Celebrations at The Study

The Study's kindergarten students embarked on a vibrant journey through a series of Color Day celebrations, each filled with fun, learning, and creativity. The festivities began with Red Day on June 28th at the Annam Block Foyer. The day started with a delightful cake-cutting ceremony, followed by energetic red day songs, engaging riddles, and fun facts. The children also enjoyed listening to a captivating story, making the celebration a memorable and joyful experience. Next came Blue Day on July 26th, where students dove into the world of the color blue through a variety of engaging activities such as singing, puppetry, and interactive games. The event culminated with an inspiring address from the Academic Director, motivating the young minds and enriching their understanding of the primary color. On August 9th, the Annam Foyer came alive with Yellow Day celebrations. The event featured a special Yellow Day song, a fun emoji game, and a lively "Show and Tell" session. The children were also treated to healthy yellow snacks like pineapple and corn. The celebration concluded with creative take-home crafts, leaving the students with joyful memories of the day. These Color Day events fostered creativity, learning, and fun, making them a resounding success for both the students and educators.

Kindergarten Students Lead Celebrations at The Study L'ecole Internationale

The kindergarten students of The Study L'ecole Internationale took center stage in a series of remarkable celebrations, demonstrating their boundless enthusiasm and capacity for learning through a variety of immersive experiences.

During the National Swimming Pool Day festivities, the young "Mini Mariners" delighted in splashing about the school's pool, all while mastering essential water safety techniques. The day was marked by joy and exuberance, leaving a lasting impression on the children, who reveled in the opportunity to combine learning with play. In alignment with the traditional wisdom of "Aadi pattam thedi vidhai," the kindergarteners spearheaded the celebration of Seed Sowing Day. Under the mentorship of Grade 6 students, they sowed seeds of tomato, brinjal, and chilly, engaging in a hands-on exploration of gardening and the vital role of the monsoon in fostering

growth. The event not only cultivated an understanding of environmental stewardship but also underscored the importance of collaboration, as older students guided their younger peers in this meaningful exercise.

On August 19th, the kindergarten students played a pivotal role in the observance of World Humanitarian Day. In a heartwarming program hosted in the conference hall, the children delivered a prayer song, performed a poignant mime, and gave speeches that eloquently conveyed the values of kindness and empathy. Special homage was paid to the school's gardeners, drivers, and housekeeping staff acknowledged as the unsung heroes of the institution. The event, overseen by the Academic Director, culminated in a sincere vote of thanks, leaving all attendees deeply inspired to uphold humanitarian ideals in their everyday lives. These celebrations, driven by the youthful exuberance and sincerity of the kindergarten students, reflect the school's dedication to fostering holistic development, blending joyful learning with the cultivation of moral and communal values.

Kindergarten Talent Competitions: Celebrating Creativity and Expression

On 19th July 2024, a Drawing and Colouring Competition was organized for kindergarten students, providing them with a platform to showcase their creativity through vibrant artwork. This was followed by a Clay Modeling Session on 14th August 2024, where the children enhanced their fine motor skills and hand-eye coordination while shaping animals, flowers, and other imaginative objects. Finally, on 9th October 2024, the Storytelling and Rhymes Reciting Competition held at Annam Foyer captivated the audience with expressive performances, celebrating the students' creativity and confidence. Each event was a tremendous success, highlighting the budding talents of our young learners.

Suivre sa passion malgré un emploi du temps chargé.

Dans notre monde moderne, nous sommes souvent pris dans une course contre le temps. Entre le travail, les études, les responsabilités familiales et les obligations sociales, il peut sembler impossible de trouver du temps pour nos passions. Pourtant, suivre sa passion est essentiel pour notre bien-être personnel et pour échapper à la routine quotidienne.

Le Bharathanatyam est une danse classique indienne qui incarne l'harmonie entre le corps et l'esprit. Pour moi, cette forme d'art va bien au-delà d'une simple pratique artistique : elle représente une passion profonde à laquelle je consacre du temps, même dans un emploi du temps chargé. Malgré les responsabilités quotidiennes, je m'efforce de suivre cette passion, car elle me permet de m'évader et de me reconnecter à moi-même. Peu importe l'âge, la danse reste une source d'énergie et de bien-être. Chaque session, qu'elle soit longue ou courte, me rappelle que les rêves ne sont pas limités par le temps. Ma passion m'a appris la patience et la persévérance. J'ai compris que suivre une passion n'a pas d'âge et qu'il est essentiel de consacrer du temps à ce qui nous fait vibrer. Cette passion m'accompagne et me pousse à évoluer, à persister et à toujours chercher un sens plus profond dans la danse et dans la vie.

Le sport et la santé :

Le sport joue un rôle fondamental à maintenir d'une bonne santé physique. En pratiquant une activité physique régulièrement, le corps reste en mouvement, ce qui permet de renforcer les muscles, améliorer la circulation sanguine et maintenir un poids corporel sain. Les bienfaits du sport vont au-delà de la simple condition physique : il aide à prévenir diverses maladies chroniques telles que l'hypertension, le diabète, et même certaines formes de cancer. Que ce soit à travers la course, la natation ou encore le yoga, l'exercice physique permet d'améliorer l'endurance et la souplesse, tout en renforçant le système immunitaire.

- Sur le plan mental, le sport est également une arme efficace contre le stress et l'anxiété. Il favorise la production d'endorphines, les hormones du bien-être, qui aident à réduire les tensions nerveuses et à améliorer l'humeur. De plus, l'activité physique régulière favorise une meilleure qualité de sommeil et augmente la confiance en soi. Pratiquer un sport en équipe, comme le football ou le basketball, permet également de développer l'esprit de camaraderie et le sens du collectif, ce qui renforce les liens sociaux et contribue à une meilleure santé mentale.

Book Release of Fearless Governance at The Study Lecole International

The Study Lecole Internationale had the distinct honour of hosting the grand release of *Fearless Governance*, authored by Dr. Kiran Bedi, former Lieutenant Governor of Puducherry. The French translation, *Une Gouvernance Sans Peur*, was officially unveiled by the Vice-Chancellor of Puducherry, Prof. Tharanikkarasu, and graciously received by the Consul General of France, M. Etienne ROLLAND PIEGUE. The event also witnessed the signing of a significant Memorandum of Understanding (MoU) between the India Vision Foundation and the K.M. Cherian Educational Foundation, marking a new collaboration in educational and social initiatives.

The program was further enriched with a presentation by Dr. Sharon, highlighting the school's pioneering courses in Good Manufacturing Practices (GMP) and Good Laboratory Practices (GLP), showcasing its commitment to advanced and holistic education. Achievers from The Study Lecole Internationale were also honoured during the event for their exemplary performance, bringing great pride to the school.

The Chairman, Dr. K.M. Cherian, delivered a keynote address, emphasizing the importance of fearless leadership and innovation in education, drawing inspiration from Dr. Bedi's illustrious career. His speech resonated deeply with the dignitaries and guests in attendance, including the Vice Chairman, Mr. Sanjay Cherian, who gave the welcome speech, and the Correspondent, Mrs. Sandhya Cherian, who extended a heartfelt vote of thanks. Mrs. Reema Daniel and other members of the management were also present, adding to the event's significance.

The ceremony, elegantly conducted in both English and French, was masterfully coordinated, reflecting the global spirit of the school. With an impressive gathering of dignitaries from Puducherry University and the wider community, the event was a resounding success, symbolizing the growing influence of The Study Lecole Internationale in fostering leadership and excellence.

Primary Academic Coordinator

ROBOROARZ AT SINGAPORE

Appreciation from the Hon'ble Chief Minister for the students of Study Lecole International school, Kalapet for having won the prizes in Robotics International competition at Singapore. A group of 28 enthusiastic students from The Study L'écoleInternationale, Kalapet, recently participated in the prestigious RoboroarZ International Robotics Competition held in Singapore on July 13th and 14th. The team embarked on their journey on July 11th, accompanied by the Academic Director, Mrs. Uma Narisimamurthy, who was the driving force behind this initiative and led the team with great dedication.

The competition saw participation from 48 teams from various countries. The students of The Study L'écoleInternationale School displayed exceptional talent and skill, securing 4th prize in the primary category and an impressive 3rd prize in the secondary category.

This outstanding performance has brought immense pride and recognition to the school.

The students had the honour of meeting the Hon'ble Chief Minister of Puducherry, Mr. Rangasamy, and the Hon'ble PWD Minister, Mr. Laxmi Narayan, who blessed them and encouraged their future endeavors.

In recognition of their remarkable achievements, Dr. K.M. Cherian, the world-renowned Cardiologist and Chairman of The Study L'écoleInternationale, congratulated the students and the dedicated teachers who contributed to this success.

Dr. Jaishankar, a Robotic Scientist with International affiliations, was the Training head who guided all the teams to solve the Challenge.

During their time in Singapore, the students also had the opportunity to visit various attractions and engage in sightseeing activities, making the trip both educational and enjoyable. The team returned to India on July 17, 2024, where they were greeted with a grand welcome by the Vice Principal of the school, Mr. Prabhu & Coordinators.

The participation in RoboroarZ International 2024 has not only brought laurels to the school but has also ignited a sense of excitement and accomplishment among the students, parents, and staff. The Study is thrilled and looks forward to nurturing more young talents in the field of robotics and beyond.

A special note of thanks goes to the parents of our students, whose unwavering trust and support have been instrumental in making this achievement possible. Their belief in the school's vision and mission continues to inspire and motivates the institution to explore more and more such opportunities in the future for the benefit of Studyiites.

My Experience...

Our journey began with an inspiring speech by Jaishankar sir, who passionately spoke about how robotics is the future. His words resonated deeply within us, igniting a desire to participate in the upcoming competition in Singapore. We were thrilled on the incredible adventure and set out to prepare with intense planning and arrangements.

Finally, the day of our departure arrived.

We started our journey with a prayer, seeking blessings for a memorable educational experience. As we boarded the bus, there was an atmosphere of joy, excitement, and anticipation—new experiences awaited us, and we were eagerly waiting...

After a three-hour trip from Pondicherry to Chennai, we finally arrived at the airport.

Our faces lit up with joy and excitement as we prepared for the next part of our journey.

Once our luggage was loaded, we stepped onto the aircraft, ready to wave a final goodbye to India. After a five-hour flight filled with anticipation, we arrived at Singapore.

Arriving in Singapore was an adventure in itself. The city's skyline, with its futuristic architecture, the energy at the competition venue was intense. Teams from around the world had gathered, each bringing their unique ideas and innovations. It was a melting pot of creativity and technology, and being part of it was humbling.

One particular moment stands out in my memory. During one of the rounds, our robot encountered an unexpected issue.

The seconds ticked away, and the pressure was immense. But instead of panicking, our team quickly rallied together. We identified the problem, made a quick adjustment, and managed to turn the Competition around.

It was a powerful reminder of the importance of staying calm under pressure and trusting in your team. This was one of my own experiences of Learning something new! This experience taught me more than just robotics. It taught me the value of being calm, the importance of teamwork, and the beauty of diversity. I learned that success is not just about winning, but about growing, learning, and pushing the boundaries of what we believe is possible.

Beyond the Competition, We also enjoyed the Attractions of Singapore such as thrilling Night safari, a day in Universal studio, Innovate Science lab, Merlion, Giant Ferris wheel and etc.

I really would like to convey my heartfelt thanks to Dr. Jaishankar

Ms. Uma Narasimhamurthy

Ms. Bhuvuneswari

Ms. Rebecca

Mr. Prabu

"JOURNEY OF DISCOVERY:
A STUDENT'S EXPERIENCE AT THE INDIA INTERNATIONAL
SCIENCE FESTIVAL"

PARTICIPATING IN THE INDIA INTERNATIONAL SCIENCE FESTIVAL'S

Student Science Village program in Haryana was an exhilarating experience that I will cherish forever. It all began with a surprise announcement from my science department head about the opportunity, which instantly filled me with excitement. Meeting the qualifications and getting selected as one of the ten students representing Pondicherry was a dream come true. The journey from Pondicherry to Faridabad was long, but the warm hospitality we received upon arrival made it worth it. The program was meticulously organized, with volunteers and organizers ensuring everything ran smoothly. Each day was filled with enlightening sessions on various scientific topics, including mathematics, biology, chemistry, and physics. We also had the opportunity to explore exhibits from students across India, adding to our learning experience. The highlight was showcasing our cultural talents in front of scientists from ISRO and engaging in

interactive sessions with Dr. Abhinav Shukla and Dr. Asfa Siddiqui, where we gained valuable insights into ISRO and space-related studies. Additionally, learning about galaxies and the universe expanded our scientific knowledge. The climax of the event was the speech by the Chief Minister of Haryana, followed by the award ceremony, which marked the end of this enriching four-day program. I am immensely grateful to my Principal, Mr. Arnab Kumar, whose support made this opportunity possible, as well as to my Science HOD, the school management, and the governments of Pondicherry and India for their contributions. This experience has not only broadened my scientific horizons but has also instilled in me a deep appreciation for the field of science and the opportunities it presents.

-Athirai Manikandan

உலா வரும் செயற்கைக்கோள் ”உலா வரும் செயற்கைக்கோள்”

என்னும் பாடலின் மூலம் செயற்கைக்கோள் பற்றிய பல தகவல்களை அறிந்து கொண்டேன். அவை பின்வருமாறு:

1. செயற்கைக்கோள்கள் உலகை சுற்றி வந்திடும்.
2. விண்வெளி தொடர்பான ஆய்வுகளுக்கு செயற்கைக்கோள்கள் மிகவும் பயன்படுகின்றன.
3. நம் மண்ணில் உள்ள வளங்களை நுட்பமாகக் காட்டுகிறது.
4. தகவல் தொடர்புக்கு உதவுகிறது.
5. வானிலை தகவல்களையும் உடனுக்குடன் தெரிந்துகொள்ள உதவுகிறது.
6. மற்ற கோள்களை நிழற்படம் எடுத்திட உதவுகிறது.
7. உலகில் மிக சிறிய இடங்களையும் துள்ளியமாகக் காட்டுகிறது.
8. கனிமவளங்கள் மற்றும் கடல் வளம் குறித்த தகவல்களை தருகிறது.
9. வானிலை தகவல்களுடன் இயற்கை சீற்றங்களான புயல், பெருமழை, சுனாமி போன்றவற்றை முன்பே கணித்து மனித உயிர்களைக் காக்கின்றது.

Poojitha. B 4-D

பின்னூட்டம்:

”உலா வரும் செயற்கைக்கோள்”

என்னும் பாடலின் மூலம் எனது மகள் எண்ணற்ற தகவல்களையும் அறிவியல் சார்ந்த செய்திகளையும் தனது தமிழ் ஆசிரியர் செளந்தரி வாயிலாக அறிந்து கொண்டாள். மேலும் இந்தப் பாடலை வெறும் ஏட்டுக்கல்வியாக மற்றும் கற்காமல் ஓசை நயத்துடன் பாடியும் உடல் அசைவுகளுடன் ஆடியும் என் மகளுக்கு எளிதில் மனதில் பதியும்படி ஆசிரியர் கற்பித்திருக்கிறார்.

எவ்வளவு நீண்ட பாடல் இதை இப்படி இலகுவாக மாணவர்கள் பயில்வதற்கு ஆசிரியர் எடுத்த முயற்சிகளே அதிகம் என்று சொன்னால் அது மிகையாகாது. இப்பாடல் பயின்றபின் என் மகள் செயற்கைக்கோள் என்றால் என்ன?

அவற்றின் பயன்கள் என்ன?

இந்தியாவிலிருந்து அனுப்பி வைக்கப்பட்ட செயற்கைக்கோள்களின் பெயர்கள் என்ன? போன்ற அனைத்து தகவல்களையும் தனது தமிழ் ஆசிரியர் வாயிலாக நன்கு அறிந்து தனது மனதில் பதிந்து வைத்து இருக்கிறாள்.

இந்த பாடலை தனது வகுப்பில் சக தோழிகளுடன் தனது தமிழ் ஆசிரியர் வழிகாட்டுதலின்படி பாடியும் ஆடியும் பயின்றுள்ளாள். இந்த பாடல் வகுப்பில் நடத்திய அதே தினம் மாலையில் வீட்டில் முழு பாடலையும் எனக்குப் புரியும்படி விளக்கியும், பாடலை ஆடிப்பாடியும் காண்பித்தாள்.

இவ்வாறு இப்பாடத்தை அவள் எளிதில் பயின்றாள் என்பதை உங்கள் அனைவருக்கும் தெரிவிக்க கடமைப்பட்டுள்ளேன்.

தமிழ் ஆசிரியருக்கு மிகவும் நன்றி. நன்றி இப்படிக்கு

பா. பிரவீணா

(M/O. Poojitha – B)

दविलीदविली केवल रोशनी, मठिइयों और आतशिबाजी का उत्सव नहीं है; यह अंधकार पर प्रकाश और बुराई पर अच्छाई की वजिय का उत्सव है। यह पुरानी परेशानियों को भूलकर नए और उज्ज्वल भवषिय का स्वागत करने का समय है हम हमारे भारत देश में दविली मनाने के तरीके के बारे में कुछ बात करें। लोग अपने दोस्तों और परिवारों की सफलता और समृद्धि के लिए प्रार्थना करते हैं। वे अपने लिए और दूसरों के लिए नए कपड़े और उपहार खरीदते हैं। लोग अपने घरों को रंगोली और फूलों से सजाते हैं। बच्चे इस त्योहार का आनंद दीये (तेल के दीये) जलाकर, रंगोली बनाकर और फूलों और अन्य सजावटी सामान से घर सजाकर लेते हैं। दविली की शाम को सभी नए कपड़े पहनत हैं, माता लक्ष्मी और गणेश जी की पूजा करते हैं और फिर आतशिबाजी का आनंद लेते हैं। जब हम दविली मानते हैं, तो हमें अपने पर्यावरण और आसपास की चीजों का भी ध्यान रखना चाहिए। जबकि आतशिबाजी उत्सव का एक

पारंपरिक हिस्सा है, हमें त्योहार मनाने के लिए पर्यावरण के अनुकूल तरीकों पर विचार करना चाहिए। हमें पटाखे जलाने से बचना चाहिए, जो शोर और वायु प्रदूषण का कारण बनते हैं। हमें इस त्योहार को ज़रूरतमंद लोगों की मदद करके, उनके साथ अपनी खुशियाँ बाँटकर और अपने चारों ओर खुशी फैलाकर मनाना चाहिए। मैं उम्मीद करता/करती हूँ कि सभी भगवान राम के दखिआए रास्ते पर चलें और हमेशा सही कार्य करें, ताकि हर तरह की बुराई पर जीत हासिल कर सकें। यह दवाली आपके और आपके प्रियजनों के लिए शांति, समृद्धि और ढेर सारी खुशियाँ लेकर आए।

-Dhruthi Jain

9-D

INDEPENDENCE DAY: MARCHPAST SELECTION

For the very first time after 9 years, we the students of The Study Lecole were given an opportunity to take part in the Independence Day parade. We were overwhelmed with joy and decided to participate with great will and sheer determination.

The art of marching itself is not easy to master, let alone achieving perfect coordination among 30 different students. It requires immense practice, precision, focus, and presence of mind. Not to mention, marching requires a lot of physical stamina and energy. During the selection process, participants undergo vigorous training sessions. These sessions are designed not only to improve marching skills but also to build team spirit and coordination. The physical demands are considerable, requiring participants to perfect their synchronization. Our school's students and NCC cadets, together, practiced several hours during the school day to become more well-rehearsed with the ways of marching together as one contingent. This instilled discipline, a striving will, and enthusiasm

among all the children. We learnt to manage our skills with perfection within the available short period of time. Participants often experience a range of emotions during this period.

A bright, sunny noon at the Indira Gandhi Stadium. Around a hundred teenage boys and girls, members of the National Cadet Corps (NCC), stand slim and eager. Each one dreams of representing their school during the grand Independence Day parade.

The students were hit with both excitement and nervousness, but despite being under the pressure of the board of selectors, they pulled through and marched with their heads held high. It was a great honor and a spirit-building experience to represent our school, The Study L'école at the Independence Day Parade Selection.

The need to perform under pressure and in front of an audience enhances confidence and resilience. Many participants take on roles such as squad leaders or drill instructors, learning to guide and motivate their peers which eventually gives them an experience of leading a team.

Furthermore, it brought about great leadership skills among the senior students.

The experience leaves participants with not only cherished memories but also valuable life lessons that extend beyond the ceremonial event. The children of The Study promise to strive towards reaching even higher goals in the future and making our school's name proud...

Special Mention to Our Academic Director Mrs. Uma Narasimha Moorthy, our Vice Principal Mr. Prabhu, our coordinator Mrs. Jothi and Mrs. Merlyne and our Marchpast In-charge Mr. Arunpandi for providing us this opportunity and guiding us through all aspects.

Anirudh & Aurodyuti

A Memorable Journey in the Table Tennis Tournament

Last year's table tennis tournament was an incredible experience for our team. The event was organized flawlessly, allowing us to focus on our game and enjoy the competition. We truly appreciated the meticulous planning and smooth execution of the tournament. A special thank you goes to our PT staff, Pugazhendhi Ma'am, whose unwavering support and guidance kept our spirits high. Her constant encouragement throughout the tournament boosted our confidence and helped us push through each round with determination.

This year, we took our game to the next level, securing an impressive 2nd place finish—an achievement that means a great deal to us. The growth we've seen in ourselves, both individually and as a team, fills us with pride.

Our progress on the court was evident, and we are grateful for the hard work and dedication that brought us this far.

A huge thank you to Arunpandi Sir, whose unwavering support made all the difference this year. His presence, motivation, and assistance throughout the tournament were key factors in our success. He believed in us from the start, pushing us to give our best and never letting us settle for anything less. Sir's guidance helped us turn our potential into performance, and we are deeply grateful for the role he played in making this year such a rewarding and successful experience.

As we reflect on this journey, it is clear that this year's tournament was not just about winning, but about growth, teamwork, and perseverance. With each game, we learned valuable lessons and strengthened our bond as a team. We are excited for the future, and with mentors like Pugazhendhi Ma'am and Arunpandi Sir by our side, we look forward to even greater achievements ahead.

ANSWERS :

1) 3, because 'six' has three letters

2) Seven (take away the 's' and it becomes 'even').

3) 1,2,3

4) 141

5) $8 \times 4 = 32$, $9 \times 5 = 45$, $10 \times 6 = 60$, $11 \times 7 = 77$, $12 \times 8 = 96$.

$32+13 = 45$, $45+15 = 60$, $60+17 = 77$, $77+19 = 96$.

So, the following number will be 96.

7	3	6	1	8	5	4	2	9
2	9	1	4	3	6	8	7	5
8	4	5	7	9	2	6	1	3
3	6	9	5	2	8	7	4	1
5	2	4	9	7	1	3	6	8
1	7	8	3	6	4	9	5	2
6	1	2	8	4	9	5	3	7
4	8	3	2	5	7	1	9	6
9	5	7	3	1	3	2	8	4
